WHAT IS NOT INCLUDED AS STANDARD IN ■20,000

These can be offered separately as paid add-ons.

Module	Why it is separate
Reservation Management	Advanced table booking, RSVP, queue and seating management.
Online Ordering / Website	Restaurant website, online ordering widget and payment gateway setup.
Advanced QR Scan & Order	Customer self-ordering from table QR codes with advanced controls.
Zomato / Swiggy Reconciliation	Automated reconciliation of commissions, discounts, cancellations and payouts.
Tally / ERP Integration	Automated sync with Tally or other ERP/accounting systems.
Advanced Loyalty & Virtual Wallet	Advanced reward rules, wallet top-ups, refunds and transaction tracking.
Kiosk Software	Self-ordering kiosk software and related kiosk hardware.
Wireless Calling Devices	Table calling devices and associated hardware.
Advanced Dynamic Reports	Custom dashboards and advanced analytics/report formats.
Task Management	Recurring staff tasks, SOP workflows, validation and reminders.
Payroll & Attendance	Attendance, leave, salary, statutory compliance and biometric integrations.
Advanced Purchase Management	Vendor invoice digitisation, expense controls and integrated purchase workflows.

Recommended positioning: Sell this as a complete core POS + Growth package. Advanced modules and hardware should be quoted separately so they can become additional revenue streams.
